**The ERC's mission is to encourage the highest quality research in Europe through competitive funding and to support investigator-driven frontier research across all fields, on the basis of scientific excellence.**

The ERC is a flagship component of Horizon Europe, the next European Union's Research Framework Programme for 2021 to 2027.

ERC grants are awarded through open competition to projects headed by starting and established researchers, irrespective of their origins, who are working or moving to work in Europe. The sole criterion for selection is scientific excellence. The aim here is to recognise the best ideas, and confer status and visibility on the best brains in Europe, while also attracting talent from abroad.

The ERC aims to:

- Support the best of the best in Europe across all fields of science, scholarship and engineering
- Promote wholly investigator-driven, or 'bottom-up' frontier research
- Encourage the work of the established and next generation of independent top research leaders in Europe
- Reward innovative proposals by placing emphasis on the quality of the idea rather than the research area
- Raise the status and visibility of European frontier research and the very best researchers of today and tomorrow

The ERC funding schemes:

|   |   |
|---|---|
| <b>ERC STARTING GRANTS</b>  | <b>ERC CONSOLIDATOR GRANTS</b>  |
| Grants up to 1.5€ million for 5 years<br>For promising early-career researchers with 2 to 7 years experience after PhD  | Grants up to 2€ million for 5 years<br>For excellent researchers with 7 to 12 years experience after PhD    |
| <b>ERC ADVANCED GRANTS</b>  | <b>ERC PROOF OF CONCEPT</b>   |
| Grants up to 2.5€ million for 5 years<br>For established research leaders with a recognised track record of research achievements   | Lump Sum Grant of 150.000€<br>For existing ERC grant holders to bring their research ideas closer to market |
| <b>SYNERGY GRANTS</b>   | <b>ADDITIONAL OPPORTUNITIES</b>   |
| Grants up to 10€ million for 6 years<br>To address ambitious research questions that can only be answered by the coordinated work of a small group of 2-4 principal Investigators | For researchers wishing to work or gain experience in an ERC grantee's team                                 |
